

AEHM 205. SCIENCE LITERACY.

Credits: 3

Offered by: Natural Resource Sciences (Faculty of Agric Environ Sci)

This course is not offered this catalogue year.

Description

Development of English language and information literacy. Problem-based approach using science topics from specializations offered by the Faculty will be central to skill development. The course includes how to research and compose work in scientific format and will encourage a reader-oriented style.

- Students whose first language is not English are encouraged to register for WCOM 295, ESL: Academic English Seminar, or equivalent, prior to starting their program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
