Offered by: Plant Science (Faculty of Agric Environ Sci)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

Description

This course introduces students to the professional aspects of the practice of agrology. Topics include understanding the responsibilities of agrologists, the broad context and functioning of the Québec agricultural industry, how to deal with clients, colleagues, and understanding legal and regulatory aspects of the profession in Québec.

- Restriction: U3 or permission of instructor.
- This course requires the ability to read in French and understand spoken French.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
