[View offerings for Fall 2025 in Visual Schedule Builder.](#)

## Description

The regional human gross anatomy of the skeleton, joints, muscles and neurovascular structures of the body as it relates to physical and occupational therapists. Laboratories include the study of prepared cadaveric specimens and the completion of a cadaveric-dissection.

- Fall
- 2 hours lectures, 2 hour laboratory
- Restriction: Open to students in Physical and Occupational Therapy and Kinesiology. Not open to students who have taken or are taking ANAT 314.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
