## ANAT 323. CLINICAL NEUROANATOMY.

Credits: 3

Offered by: Anatomy and Cell Biology (Faculty of Science)

This course is not offered this catalogue year.

## **Description**

This course will focus on the structural and functional relationships of the central nervous system. The human neuroanatomy will be introduced via pathological cases and will be illustrated by use of new medical imaging techniques.

- Prerequisites for Physical & Occupational Therapy students: ANAT 315 and ANAT 316
- Prerequisites for Honours Anatomy & Cell Biology students: ANAT 214 and ANAT 314.
- Restrictions: Restricted to Honours Anatomy & Cell Biology students and Physical & Occupational Therapy students.
- · Not open to students who have taken or are taking ANAT 321.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
