

# ANAT 416. DEVELOPMENT, DISEASE AND REGENERATION.

---

Credits: 3

Offered by: Anatomy and Cell Biology (Faculty of Science)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

## Description

Importance of developmental biology for disease and regeneration.  
Topics: advanced developmental biology principles; molecular basis for stem cells and their potential applications; organogenesis and its applications to various diseases.

- Winter
- 3 hours lecture
- Prerequisite(s): ANAT 381 or BIOL 303 or special permission of instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
