Credits: 3

Offered by: Animal Science (Faculty of Agric Environ Sci)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

Overview of the major Canadian livestock industries with particular emphasis on dairy, pork, broilers, and layers. Building on introductory livestock management and advanced nutrition, breeding, and reproductive physiology, current and evolving IoT practices for the production of consumer animal products.

- Restrictions: Not open to students having taken ANSC 454 or ANSC 456. Restricted to U2 or higher.
- Prerequisite: ANSC 250, or permission of the instructor
- Restrictions: Open only to U3 students.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
