

ANSC 611D1. ADVANCED REPRODUCTIVE BIOLOGY.

Credits: 1.5

Offered by: Animal Science (Graduate Studies)

This course is not offered this catalogue year.

Description

An introduction to key concepts in reproductive biology and principles of emerging reproductive technologies. Modules covered include oogenesis and folliculogenesis, fertilization, embryo development, reproductive biotechnology and new directions in reproductive biology.

- No prerequisites, but students need to have a solid background in reproductive physiology.
- Note: Course offered in alternate years.
- Students must register for both ANSC 611D1 and ANSC 611D2.
- No credit will be given for this course unless both ANSC 611D1 and ANSC 611D2 are successfully completed in consecutive terms.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
