

ANTH 311. PRIMATE BEHAVIOUR AND ECOLOGY.

Credits: 3

Offered by: Anthropology (Faculty of Arts)

This course is not offered this catalogue year.

Description

Critical evaluation of theories concerning primate behaviour with emphasis on the importance of ecological factors in framing behaviour, including mating behaviour, parent care, social structures, communication, as well as various forms of social interaction such as dominance, territoriality and aggressive expression.

- Fall
- Prerequisite: Any 200 level course in a social or biological science.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
