

# ANTH 313. BIOARCHAEOLOGY

---

Credits: 3

Offered by: Anthropology (Faculty of Arts)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

## Description

Survey of foundational methods and theory used to analyze and interpret human remains in archaeological contexts. Topics will include human osteology, skeletal growth and development, building a biological profile, osteological indicators of health and lifestyle, and ethical considerations in the field. Emphasis is on the application of social bioarchaeology theory to interpret bioarchaeological data.

- Winter
- Prerequisite: ANTH 213
- This class will meet for laboratory sessions several times throughout the semester.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
