

ANTH 504. ENVIRONMENTAL ARCHAEOLOGY.

Credits: 3

Offered by: Anthropology (Faculty of Arts)

This course is not offered this catalogue year.

Description

Study of long-term relationships between humans and their environments based on empirical evidence. Topics include review of methodological tools in paleoecological reconstruction, and approaches to evaluating human-environment relationships. Examples will be drawn from various subfields, including, but not limited to, settlement archaeology, human ecology, and landscape archaeology.

- Prerequisite(s): ANTH 201, ANTH 357
- Restriction(s): Anthropology major or honours PLUS permission of instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
