

# ANTH 605. ARCHAEOLOGICAL RESEARCH DESIGN

---

Credits: 3

Offered by: Anthropology (Graduate Studies)

This course is not offered this catalogue year.

## Description

The development and design of archaeological research and the role of a multi-faceted archaeological epistemology in the construction and substantiation of historical inferences involving archaeological data; how archaeologists frame their research with theory and deploy appropriate methods to explore archaeological data sets to address anthropological and historical problems located in the past; exploration of important intersections of archaeological data with textual, ethnographic, and community knowledge data (oral history, traditional ecological knowledge) in research design.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
