

ARCH 240. ORGANIZATION OF MATERIALS IN BUILDINGS.

Credits: 3

Offered by: Architecture (Faculty of Engineering)

This course is not offered this catalogue year.

Description

The characteristics of basic building materials: wood, steel, masonry and concrete. How building materials are shaped into building components, and how these components are integrated into the building envelope. Problems, laboratory projects and field trips to illustrate principles.

• (2-3-4)

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
