

ARCH 410. DESIGN AND CONSTRUCTION 5.

Credits: 6

Offered by: Architecture (Faculty of Engineering)

This course is not offered this catalogue year.

Description

A study of the function and structure of the urban environment, including surveys of selected urban areas by recording and analysing specific environmental factors. Architectural and urban design with reference to their social implications. Urban renewal and rehabilitation by means of systematic design methods. Techniques of visual communication including documentary film-making.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
