

BIEN 219. INTRODUCTION TO PHYSICAL MOLECULAR

Credits: 4

Offered by: Bioengineering (Faculty of Engineering)

This course is not offered this catalogue year.

Description

An introduction to molecular and cell biology from a physical perspective. Techniques and methodologies, both experimental and computational, are included in the presentation of each thematic module.

- Corequisite(s): MATH 222 or equivalent
- Prerequisite(s): BIOL 112; CHEM 110 and CHEM 120; MATH 140, MATH 141 and MATH 133; PHYS 131 and PHYS 142; or the equivalents of these courses
- Restriction(s): Not open to students who have taken or are taking ANAT212, BIOC212, BIOL200, BIOL 201 and BIOL219. Only open to students in Bioengineering, Computer Science-Biology, Biology-Mathematics, BiologyQuantitative Biology, Chemistry-Biophysical Chemistry, and Physics-Biological Physics options.
- This course is meant to prepare students for related 300-level courses in Biology, Chemistry, Engineering, and Physics.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
