

BIOL 324. ECOLOGICAL GENETICS.

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

Description

Presents evolutionary genetics within an ecological context. Covers theoretical and applied topics together with relevant data from natural populations of plant and animals.

- Fall
- Prerequisite: BIOL 202 or BIOL 302
- Two lectures per week; one required computer lab or conference per week

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
