

# BIOL 352. DINOSAUR BIOLOGY.

---

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

## Description

Using dinosaurs as exemplars, this course teaches aspects of comparative, functional, and developmental morphology, macroevolution, macroecology, and phylogenetic systematics. Lab dissections will explore vertebrate anatomy.

- Winter
- 2 hours lecture, 3 hours laboratory
- Prerequisites: BIOL 215 or ENVR 202 or EPSC 233 or permission of instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
