

# BIOL 416. GENETICS OF MAMMALIAN DEVELOPMENT.

---

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

## Description

This course aims to examine problems, theories, and experimental evidence on several concepts of mammalian developmental processes at molecular to organogenesis levels. Most topics are in the mouse model system, where various techniques for genetic manipulation are available.

- Restriction: Not open to students who have taken BIOL 516
- Winter
- 3 hours lecture
- Prerequisites: BIOL 202 or BIOL 302; BIOL 300; BIOL 303; or permission of instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
