

BIOL 435. NATURAL SELECTION.

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

Description

Explains how the selection of undirected variation accounts for some of the leading features of the natural world. Its main focus is evolutionary change and adaptation, but it will also include material from ecological, economic, biochemical and computer systems. It emphasizes experimental studies of evolution.

- Fall
- 3 hours of lecture
- Prerequisite: BIOL 304 or permission of instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
