BIOL 436. EVOLUTION AND SOCIETY.

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

Description

Explores the impact that biological evolution and evolutionary thinking have on society. Topics include intelligence, language, race, gender, medicine, genetically modified organisms, politics, and creationism.

- Fall
- Prerequisite: BIOL 304 or permission of the instructor
- Course instructors will introduce each topic and lead discussion, while an invited lecturer will focus on a particular aspect of that topic.
- Enrolment limited to 25 students.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
