

BIOL 451. RESEARCH IN ECOLOGY AND DEVELOPMENT IN AFRICA.

Credits: 3

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

Description

Development of observation and independent inquiry skills through:
1) participation in short-term project modules in collaboration with existing researchers; 2) participation in interdisciplinary team research on topics selected to allow comparative analysis of field sites; 3) active and systematic observation, documentation, and integration of field experience in ecology and development issues.

- Winter
- Open only to U2 or later students in the AFSS.
- Corequisite(s): ANTH 451 or GEOG 451
- Restriction(s): Not open to students who have taken or are taking NRSC 451.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
