---

Credits: 3

Offered by: Biology (Faculty of Science)

Terms offered: Summer 2025

[View offerings for Summer 2025 in Visual Schedule Builder.](#)

## Description

Terrestrial vertebrate fossils (i.e. dinosaurs, crocodiles and other reptiles) and palaeocommunity analysis, including practical training with fossil identification, mapping, collecting, and stratigraphic interpretation.

- Summer
- Prerequisites: BIOL 304 and BIOL 352 or permission of instructor.
- Notes: Spring field course with completed project and presentation by the end of the Summer. Given in a selected Late Cretaceous Alberta and/or Saskatchewan site. Enrolment limited to 15 students.
- This course, given at selected localities in Alberta and/or Saskatchewan in May, has an additional fee of \$1,500.00 which includes room and board, museum entrance fees, and transportation during the course, but not tuition or transportation to western Canada.
- This course is offered in the summer.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
