

# BIOL 596. ADVANCED EXPERIMENTAL DESIGN.

---

Credits: 1

Offered by: Biology (Faculty of Science)

This course is not offered this catalogue year.

## Description

This course focuses on experimental design as it relates to statistical analyses to prepare individuals for data collection. Instructors will provide information on basic statistical principles and require students to prepare presentations about their experiments, write summaries of their research, and discuss and critique journal articles.

- Prerequisite: BIOL 373 or equivalent and permission of instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
