Credits: 3

Offered by: Biology (Graduate Studies)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

A study of the physical, chemical and biological properties of inland waters, with emphasis on their functioning as systems.

- Fall
- 3 hours lecture
- Prerequisites: BIOL 206 and/or permission
- This course, involving two field weekends, has an additional fee of \$360.39, which includes room and board and transportation. The fee is refundable during the period where a student can drop the course with full refund. The Department of Biology subsidizes a portion of the cost for this activity.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
