

BIOS 610. CAUSAL INFERENCE IN BIOSTATISTICS.

Credits: 4

Offered by: Epidemiology and Biostatistics (Graduate Studies)

This course is not offered this catalogue year.

Description

Foundations of causal inference in biostatistics. Statistical methods based on potential outcomes; propensity scores, marginal structural models, instrumental variables, structural nested models. Introduction to semiparametric theory.

- BIOS 602, MATH 557, or equivalent, or permission of the instructor.
- This course is intended for PhD and advanced Masters students in Biostatistics or Statistics.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
