

# BMDE 505. CELL AND TISSUE ENGINEERING.

---

Credits: 3

Offered by: Biomedical Engineering (Faculty of Engineering)

This course is not offered this catalogue year.

## Description

Application of the principles of engineering, physical, and biological sciences to modify and create cells and tissues for therapeutic applications will be discussed, as well as the industrial perspective and related ethical issues.

- (3-0-6)
- 1.5 hours lecture/1.5 hours seminar per week
- Restriction: graduate and final year undergraduate students from physical, biological, and medical science, and engineering.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
