Offered by: Parasitology (Graduate Studies)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

## Description

A laboratory-based course in a variety of topics including: proteomics, protein expression and purification, conventional and HPLC chromatography, protein-protein interactions, ELISA, and Western blot analysis and hybridoma techniques.

- Prerequisite: BTEC 620 or permission of the instructor.
- The fee of \$598.39 is used to support the cost of chemical reagents, kits, disposables and minor equipment necessary to run this hands-on laboratory course.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
