Description

The third portion of the internship consists of direct contact with clients, clinical supervision, a didactic seminar series, psychotherapy rounds and complementary clinical activities. In this course, students will participate in a series of seminars provided by faculty experts on the four models of treatment: (Humanistic, Systemic) cognitive behavioural couple and family therapy (CBMT), attachment focused and mentalizing based therapy for couples and families (Psychodynamic) and systemic family therapy (Systemic). Students will participate in an integrative seminar designed to facilitate the integration of their advancing knowledge and clinical skills.

- **Due to the intensive nature of this course, the standard add/drop and withdrawal deadlines do not apply. Add/drop is the second lecture day and withdrawal is the fifth lecture day.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
