CBUS 226. AVIATION PROJECT MANAGEMENT.

Credits: 5

Offered by: Management & Entrepreneurship (School of Continuing Studies)

This course is not offered this catalogue year.

Description

The objective of this course is to provide aviation industry professionals with a solid project management methodology. Participants will use their own aviation projects to apply concepts taught throughout the course. Emphasis is placed on the following areas: project management concepts and definitions, project management process groups and knowledge areas, definition and content of a project charter. Participants learn how to prepare a project plan using MS Project 2010 software in a 'hands-on' laboratory setting.

- 35 hours of classroom instruction plus 15 hours of readings and assignments

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.

Launch Visual Schedule Builder (https://vsb.mcgill.ca/vsb/criteria.jsp)
