## Description

Development of web sites and web-based applications using page markup, style sheets, and client-side scripting. Emphasis will be placed on developing pages that support current standards and accessibility requirements, as well as multimedia, cross-platform development, and site deployment.

- Prerequisites: CCCS 300 or approval of the Director or Program Coordinator.
- Course may be offered in person or online with synchronous and asynchronous activities.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
