CCCS 325. MOBILE APPLICATION DEVELOPMENT.

Credits: 3

Offered by: Technology & Innovation (School of Continuing Studies)

This course is not offered this catalogue year.

Description

Examines the limitations and technical challenges of current mobile devices and wireless communications by using up-to-date software development tools and application programming interfaces. Develop small realistic applications for mobile devices by using a standard software development environment.

- Prerequisites: CCCS 300 or approval of the Director or Program Coordinator.
- Course may be offered in person or online with synchronous and asynchronous activities.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
