

# CCCS 452. SECURITY PROGRAM ARCHITECTURE AND ENGINEERING.

---

Credits: 3

Offered by: Technology & Innovation (School of Continuing Studies)

This course is not offered this catalogue year.

## Description

Information security concepts of security models, engineering processes using secure design principles, assessing and mitigating vulnerabilities in systems, designing and implementing physical security.

- Prerequisites: CCCS 300, CCCS 321, CCCS 431 and CMIS 422; or approval of the Director or Program Coordinator.
- Course may be offered in person or online with synchronous and asynchronous activities.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
