

# CENG 225. ORE RESERVE RISK AND MINE PLANNING.

---

Credits: 3.5

Offered by: Fac Partner & Summer Studies (School of Continuing Studies)

This course is not offered this catalogue year.

## Description

Methods to build up to the presentation of a new generation of applied technologies (stochastic mine planning optimization) dealing with geological risk and its substantial effects on ore reserves, strategic planning, optimization, risk management and profitability.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
