

CHLC 630. ARTIFICIAL INTELLIGENCE IN HEALTHCARE.

Credits: 3

Offered by: Administration & Governance (School of Continuing Studies)

This course is not offered this catalogue year.

Description

In-depth examination of how artificial intelligence (AI) is changing operations in healthcare through analysis of the AI impact and its application on healthcare systems. Topics include AI operations (Ops) and operational infrastructure, exploration of AI Ops in automation, and AI Ops cloud operations. Extensive exploration of current possibilities using AI in healthcare and how AI works in practice.

- Course includes synchronous activities.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
