COMP 364. COMPUTER TOOLS FOR LIFE SCIENCES.

Credits: 3

Offered by: Computer Science (Faculty of Science)

This course is not offered this catalogue year.

Description

Concepts and tools for programmatic storage, retrieval, searching, numerical analysis, and visualization of large biological data sets.

- 3 hours
- Prerequisite: BIOL 200.
- Restriction: Not available to students in Computer Science or Joint Computer Science programs.
- Note: It is recommended that students have already taken a laboratory course (e.g., BIOL 301 Cell and Molecular Laboratory). Topics motivated by biological questions.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
