COMP 401. PROJECT IN BIOLOGY AND COMPUTER SCIENCE.

Credits: 3

Offered by: Computer Science (Faculty of Science)

Terms offered: Winter 2026

View offerings for Winter 2026 in Visual Schedule Builder.

Description

A research project applying computational approaches to a biological problem.

- 3 hours
- Prerequisite(s): COMP 251 and 9 credits of BIOL courses, BIOL 301 recommended. Department approval and project form required to register.
- Restriction: Open only to students in the Major in Biology and Computer Science program.
- Note: having taken BIOL 301 before COMP 401 is beneficial for finding a project within a Biology lab.
- The project is (co)-supervised by a professor in Computer Science and/or Biology

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
