

COMP 402. HONOURS PROJECT IN COMPUTER SCIENCE AND BIOLOGY.

Credits: 6

Offered by: Computer Science (Faculty of Science)

This course is not offered this catalogue year.

Description

One-semester research project applying computational approaches to a biological problem.

- Prerequisite(s): 9 credits of COMP courses and 9 credits of BIOL courses. Department approval and project form required to register.
- Restriction(s): Open only to students in the Honours in Computer Science and Biology program.
- Note: The project is (co)-supervised by a professor in Computer Science and/or Biology or related fields.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
