

# COMP 533. MODEL-DRIVEN SOFTWARE DEVELOPMENT.

---

Credits: 3

Offered by: Computer Science (Faculty of Science)

This course is not offered this catalogue year.

## Description

Model-driven software development; requirements engineering based on use cases and scenarios; object-oriented modelling using UML and OCL to establish complete and precise analysis and design documents; mapping to Java. Introduction to meta-modelling and model transformations, use of modelling tools.

- 3 hours
- Prerequisite: ECSE 321 or COMP 303 or COMP 361

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
