

CSNM 632. DYNAMIC SUPPLY NETWORKS AND LEAN OPERATIONS

Credits: 3

Offered by: Management & Entrepreneurship (School of Continuing Studies)

This course is not offered this catalogue year.

Description

A comprehensive approach to creating robust supply networks using lean and agile techniques. Topics include redesigning factory measurements and dynamics, supply network variability, product-process portfolio matrices, push and pull production systems, capacity management in dynamic supply networks, and production execution technologies

- Not open to students who have taken CMS2 532.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
