

CSNM 640. SIX-SIGMA AND SUPPLY

Credits: 3

Offered by: Management & Entrepreneurship (School of Continuing Studies)

This course is not offered this catalogue year.

Description

Examination of the Define, Measure, Analyze, Design, and Verify (DMADV) approach in transforming supply networks. Competencies such as digital dexterity and systems technology literacy that address advanced optimization and other analytical and automation solutions needed to design and operate resilient supply networks. Examining best practices in building the relationship between Lean and Six Sigma.

- Restrictions: Not open to students who have taken CMS2 540.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
