[View offerings for Winter 2026 in Visual Schedule Builder.](#)

Description

Diagnosis, treatment planning, radiographic analysis and surgical and restorative procedures to restore partial and complete edentulous spaces. Treatment of partial or complete edentulism with removable as well as fixed prostheses of either soft tissue or implant borne or partially or completely supported by titanium implants.

- Restriction(s): Open to DMD students only.
- Prerequisite: DENT 309J1
- Students must also register for DENT 309J3
- No credit will be given for this course unless DENT 309J1, DENT 309 J2 and DENT 309J3 are successfully completed in consecutive terms

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
