

DENT 642. ORAL/ MAXILLOFACIAL RADIOLOGY 1

Credits: 3

Offered by: Dental Med & Oral Health Sci (Graduate Studies)

This course is not offered this catalogue year.

Description

General principles of radiographic indication and prescription in oral medicine, structured on the identification and analysis of all types of radiographs, including discussion of radiographic anatomy description in routine dental radiographs as well as CBCT and MRI scans. Guidance on the appropriate preliminary approach to take when a radiographic abnormality is detected.

- Restrictions: Open only to students enrolled in the Graduate Diploma in Oral Medicine.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
