

ECSE 611. SOFTWARE ANALYTICS.

Credits: 4

Offered by: Electrical & Computer Engr (Graduate Studies)

This course is not offered this catalogue year.

Description

The application of analytics (i.e., the discovery and communication of meaningful patterns in data) to software development and release processes. Students will study, discuss, and critique research papers appearing in the current literature. This course involves a project.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
