Description

21st Century Learning that shifts education away from learning as a cognitive/rational endeavour focused on reproduction of content knowledge, and toward learning as a life-long process. Contemporary learning in seven areas: 1) make learning and learner engagement central; 2) learning is social and often collaborative; 3) be attuned to learners' motivations and emotions; 4) be sensitive to individual differences including prior knowledge; 5) be demanding for each learner but without excessive overload; 6) recognize assessment as critical, but with strong emphasis on formative feedback; 7) promote horizontal connectedness across activities and subjects, in and out of school.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
