

EDPE 375. INTRODUCTORY STATISTICS.

Credits: 3

Offered by: Educational&Counselling Psych (Faculty of Education)

This course is not offered this catalogue year.

Description

This online course provides an introduction to the fundamentals of descriptive and inferential statistics. Topics in descriptive statistics include introduction to statistics, measures of central tendency, variability and correlation. Topics in inferential statistics concentrate on basic procedures in between-group hypothesis testing using dependent and independent t-tests and within-group hypothesis testing using correlation.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
