

EDPE 658. INTRODUCTION TO HSE CURRICULUM AND PROGRAM DEVELOPMENT.

Credits: 3

Offered by: Educational&Counselling Psych (Graduate Studies)

This course is not offered this catalogue year.

Description

Instructional design principles and their application to course and program development, highlighting a learner-centered approach to teaching, curriculum design, and program development (e.g., competency-based curriculum) and specific approaches to delivery in diverse health sciences education contexts in which teaching and learning occur (e.g., simulation, classroom, clinical settings).

- Prerequisite: EDPE 657
- 1. The blended format requires a total of 130 hours of learning time. This will be achieved by 20 hours of face-to-face instruction, 60 hours of online synchronous and asynchronous instruction, and 50 hours of individual work including readings, assignments and projects.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
