

EDPE 712. NEUROLOGICAL BASES OF BEHAVIOUR ACROSS LIFESPAN.

Credits: 3

Offered by: Educational&Counselling Psych (Graduate Studies)

This course is not offered this catalogue year.

Description

Neurobiological changes specific to developmental, learning, psychiatric and neurodegenerative conditions with clinical onset across the lifespan examined within environmental and psychosocial contexts. Uses of current neuromodulatory and pharmacological remediation discussed in addition to clinical/educational intervention.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
