Description

The course is designed to help practicing and future teachers integrate current and emerging technology in their daily teaching practices. It is a practical, hands-on course that is grounded in constructivist learning theory. The participants will learn by engaging in authentic tasks in a project-based learning environment.

- Not open to students who have taken or are taking EDEC 262.
- Also offered through the School of Continuing Studies.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
