Description

This course will focus on the role of place and history in the cities in which we live and in our understanding of sustainability. Each year, students will work to develop a historical reconstruction of the natural environment of Montreal and of its links to the cultural landscape, building on the work of previous cohorts of students.

- Each year focuses on making a specific and unique contribution to The Hochelaga Project; topics vary as required.
- Prerequisite(s): ENVR 301 or equivalent, or permission from the instructor.
- Corequisite(s): ENVR 422

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
