

ENVR 451. RESEARCH IN PANAMA.

Credits: 6

Offered by: Bieler School of Environment (Faculty of Science)

This course is not offered this catalogue year.

Description

Research projects will be developed by instructors in consultation with Panamanian universities, government agencies and non-governmental organizations. Project groups will consist of four to six students working with a Panamanian institution. Topics will be relevant to Panama: e.g., protection of the Canal watershed, economical alternatives to deforestation, etc.

- Winter
- Restriction: students in the Panama Field Semester program.
Offered in Panama only

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
