

# ENVR 620. ENVIRONMENT AND HEALTH OF SPECIES.

---

Credits: 3

Offered by: Bieler School of Environment (Graduate Studies)

This course is not offered this catalogue year.

## Description

How major environmental problems affect the health of human and non-human species, and how environment and health interact at different spatial and temporal scales and with different components of the ecosystem. Immediate, chronic and evolutionary consequences on health. Uncertainty and causation.

- Restriction: Open to students in the Environment Option (available to other students with permission of instructor).

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
